

Natural Qualities Ingredient List

Mineral Foundation: Sericite Mica (Magnesium & Carnauba Wax Coated), Titanium dioxide, Zinc Oxide, Iron Oxides, Calendula, Silk, Mica, Ultramarine, Allantoin

Tinted Moisturizer: Water (Distilled), Aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Rosehip Seed Oil (Rosa Rubiginosa), Hyaluronic Acid (Sodium Hyaluronate), Titanium Dioxide, Iron Oxide, Ultramarine Blue, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, and 100% pure Essential oils of Calendula, Carrot Seed, Frankincense, Lemon, Clary Sage and Tea Tree.

Mineral Veil: Sericite Mica (Magnesium & Carnauba Wax Coated), Silica Micro Spheres, Titanium dioxide, Zinc Oxide, Iron Oxides, Ultramarines, Silk, Allantoin, Mica

Blush: Sericite Mica (Magnesium & Carnauba Wax Coated), Titanium dioxide, Iron Oxides, Silk, Mica, Ultramarine

Eye Shadow: Sericite Mica (Magnesium & Carnauba Wax Coated), Titanium dioxide, Zinc Oxide, Iron Oxides, Ultramarines, Mica, Calendula, Allantoin

Mascara: Distilled Water, Bentonite Clay, Iron Oxide, Hamamelis Virginiana (Witch Hazel) Distillate, Honey, Vegetable Glycerin, Acacia Gum, Silk Powder, Silver citrate, Citric acid

Lip Stick: Glycine Soja (Soybean) Oil, Cera Alba (Beeswax), Helianthus Annus (Sunflower) Seed Oil, Theobroma Cacao (Cocoa) Seed Butter, Butyrospermum Parkii (Shea Butter) Fruit, Tocopherol Acetate (Vitamin E), Iron Oxides, and Mica

Lip Balm: Glycine Soja (Soybean) Oil, Cera Alba (Beeswax), Helianthus Annus (Sunflower) Seed Oil, Theobroma Cacao (Cocoa) Seed Butter, Butyrospermum Parkii (Shea Butter) Fruit, Tocopherol Acetate (Vitamin E) (flavored balms have flavored oils)

Cold Sore Lip Balm: Glycine Soja (Soybean) Oil, Cera Alba (Beeswax), Helianthus Annus (Sunflower) Seed Oil, Theobroma Cacao (Cocoa) Seed Butter, Butyrospermum Parkii (Shea Butter) Fruit, Tocopherol Acetate (Vitamin E), flavored oil, Stevia and 100% pure Tea Tree essential oil.

Flavored Lip Gloss: Castor Oil (Ricinus Communis), Sesame Seed Oil (Sesamum indicum), Coconut Oil (Cocos Nucifera), Natural Flavoring, Stevia Glycerite, Olive Oil (Olea Europaea), Beeswax, Mica. May contain iron oxides.

Wrinkle Reducing Moisturizer: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, 100% pure oils of Sandalwood, Geranium, Neroli, Tea Tree, Orange, Jasmine, Clove, Chamomile, Lemon and Rosewood.

Rose Water Toner: Rose Hydrosol

Facial Cleanser: Aloe Barbadensis (Aloe) Leaf Juice, Glycerin (of vegetable origin), Sasamum Indicum (Sesame) Seed Oil, Hyaluronic Acid, Cucumis Sativus (Cucumber) Peel, Simmondsia Chinensis (Jojoba) Seed Meal, Cocos Nucifera (Coconut) Oil, Palm, Ricinus Communis (Castor) Seed Oil & Carthamus Tinctorius (Safflower) Oils, Goat's Milk, Aloe Vera Gel, Purified Water, Sodium Hydroxide, Sorbitol (from berries), Sorbitan Oleate, Soy Bean Protein, Titanium Dioxide, Butyrospermum Parkii (Shea Butter) Fruit, Essential Oils of: Ylang Ylang, Lavender, Tangerine, Geranium, Tea Tree, Chamomile and Calendula Pore Reducing

Toner for Dry Skin: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, 100% pure essential oils of Patchouli, Carrot Seed, Rosewood, Tea Tree, Lavender, Cypress, Thyme, Eucalyptus

Pore Reducing Astringent for Oily Skin: Witch Hazel, Aloe Vera, Deionized Water, Rose hydrosol, 100% pure essential oils of Cypress, Geranium, Sage, Lime, Juniper, Lavender, Cedar, Carrot Seed, Rosewood and Clove.

Rose Water Pore Reducing Toner for all skin types: Rose Hydrosol, 100% pure essential oils of Carrotseed, Rosewood, Lavender & Cypress

Pimple Magic: Deionized water, Witch Hazel, Aloe Vera gel, 100% pure oils of Thyme, Tea Tree, Lavender, Eucalyptus, and geranium.

Goat's Milk Soap: Coconut, Palm, Castor & Safflower Oils, Glycerin (of vegetable origin), Goat's Milk, Aloe Vera Gel, Purified Water, Sodium Hydroxide, Sorbitol (from berries), Sorbitan Oleate, Soy Bean Protein, Titanium Dioxide, Shea Butter, Essential or Fragranced oil (dependent on scent)

Back Pain & Inflammation: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, and 100% pure oils of birch, Lavender, Clove, marjoram, eucalyptus, cypress, ginger, basil, chamomile and nutmeg.

Painful Joints: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, and 100% pure oils of birch, sweet marjoram, basil, frankincense, ginger, lavender, clove, and nutmeg.

Shakes & Tremors: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, and 100% pure oils of clary sage, marjoram, lavender and juniper.

Skin Rash: Water (Distilled), aloe Vera (Aloe barbadensis) Whole Leaf Juice (Organic), Vegetable Glycerin, Shea Butter (Butyrospermum parkii), Sweet Almond Oil, (Prunus amygdalus dulcis), Emulsifying Wax, Palm Stearic Acid, Vitamin E (Tocopherol), Silver Citrate, Citric Acid, and 100% pure oils of geranium, lavender, bergamot, Sandalwood, tea tree, carrot seed, juniper.

Explanation of Ingredients

Acacia Powder – Also called Gum Acacia or Gum Arabic, it is the resin from the Acacia Tree. It is used in cosmetics and foods as a gum type thickener. It also helps make mascara smudge proof.

Allantoin - a botanical extract of the comfrey plant and is used for its healing, soothing, and anti-irritating properties. Allantoin helps to heal wounds and skin irritations and stimulate growth of healthy tissue. This extract can be found in anti-acne products, sun care products, and clarifying lotions because of its ability to help heal minor wounds and promote healthy skin.

Aloe Vera Gel – Antibacterial, antiviral, antifungal and anti-inflammatory. Research shows Aloe vera gel to be a great topical healing aide.

Beeswax – Mostly used to harden other oils to form a solid. This is called an emulsifier. Beeswax is also a hydrating ingredient that increases skins moisture.

Bentonite Clay - effective and powerful healing clay used in treatment both internally and externally. In cosmetics it is used to help thicken a product without flaking. Bentonite can be used externally as a clay poultice, mud pack or in the bath and, in skin care recipes.

Calendula – Herb that may speed healing time of skin wounds, abrasions and rashes.

Carnauba Wax - Carnauba is a wax derived from the leaves of a plant native to northeastern Brazil, the carnauba palm (*Copernicia prunifera*). It helps give lipstick extra shine as well as making it solid. In powdered cosmetic foundations it allows for better coverage of the makeup without clogging facial pores.

Castor Oil – Extracted from the castor bean plant, this oil has been used medicinally and cosmetically for years. It is very viscous oil that promotes shine to the finished product as well as being a humectant. A humectant is oil that attracts moisture. These properties make it excellent for lip balms and glosses.

Cocoa Seed Butter - Those of you who have spent any time in the sun know that cocoa butter is very moisturizing. Cocoa butter is a yellowish fatty acid obtained from the cocoa seeds and used in cosmetics, chocolate and soap. Pure cocoa butter is very rich and moisturizing and is useful for rejuvenating all skin types. It provides a moisture barrier to help to prevent drying on the skin. While cocoa butter is extremely nourishing to the skin, it also helps to preserve the skin's natural elasticity.

Coconut Oil - Coconut oil prevents destructive free-radical formation and provides protection against them. It can help to keep the skin from developing liver spots, and other blemishes caused by aging and over exposure to sunlight. It helps to keep connective tissues strong and supple so that the skin doesn't sag and wrinkle. The oil is absorbed into the skin and into the cell structure of the connective tissues, limiting the damage excessive sun exposure can cause. Coconut oil will not only bring temporary relief to the skin, but it will aid in healing and repairing. It will have lasting benefits. It can help bring back a youthful appearance.

Glycerin - Glycerin is a humectant, drawing moisture to your skin, allowing it to remain hydrated and soft. Beyond hydrating your skin, glycerin is also known to be a natural remedy for yeast and fungal infections, such as eczema and psoriasis. It is especially good for sensitive skin.

Goat's Milk – Our soap contains 10% goat's milk. Goat's milk makes soap gentle and moisturizing. It also adds natural proteins to the soap as well as vitamins and minerals. It lowers the Ph to make it more compatible with the skins natural Ph. It is especially kind to sensitive skin and has been touted to relieve an array of different types of rashes and skin problems.

Hyaluronic Acid- Hyaluronic acid occurs naturally in every tissue of the body with most of it being in the connective tissue around the eyes and mouth. It functions to help the skin retain moisture. As we age our skin losses this ability. By replacing this important acid it increases the skins natural elasticity and tone, thereby reducing the signs of aging.

Iron Oxides - Although iron oxides can be found in nature (rocks, dirt), they contain heavy metals such as lead so iron oxides for cosmetics are oxidized to take out heavy metals. They produce beautiful "earthy" tones and never bright, true colors. You can achieve beautiful muted colors with these pigments.

Lavender extract – Soothes chapped dry skin. Antiseptic and antifungal. Useful for many skin conditions including: acne, eczema, psoriasis, scarring and stretch marks.

Palm Oil – One of the oils that gives it that luscious lather. It is also a rich source of vitamin A and helps reduce the signs of aging.

Rose Water- Rosewater is the water that is captured during the making of rose essential oil and contains the same benefits as the oil itself. It has been valued by women for centuries. Not only does it have an uplifting quality, but also benefits the skin by hydrating, disinfectant, anti-inflammatory and regeneration of skin cells.

Rosehip Seed Oil – This oil has all of the same benefits as rose water with the added benefit of being extremely rich in Vitamins A, E and C. It has been shown to regenerate skin cells and improve elasticity causing a decrease in wrinkles, and replacing the natural color and tone to the skin.

Sericite Mica - A group of naturally occurring Earth's minerals which are mined from around the world, purified, and crushed into fine powders. The name Mica is derived from the Latin word "micare" which means "to shine or glitter." Micas use light reflection, refraction, and transmission to exhibit their effects much like a prism creates various colors as light passes through it.

Sesame Seed Oil - Sesame Seed Oil is resistant to oxidation due to the presence of several cyclic ethers that exhibit antioxidant properties. This oil is resistant to clouding at low temperatures, and is a great moisturizer.

Silver Citrate – A wide range natural preservative. Silver citrate is a water soluble silver salt of citric acid. It is formaldehyde free, paraben free, non-halogenated and contains no phenols or ammonium compounds. It has no adverse effects on human health and is non-irritating to skin and eyes.

Shea Butter - Comes from the fruit kernels of the shea nut tree. This butter has an amazing amount of healing properties and softening capability. Shea butter has been shown to have anti-inflammatory capabilities. It has been shown to increase the healing of wounds and improve scars. It is used to heal eczema, burns, rashes, severely dry skin, and to lessen the irritation of psoriasis. Damage from the sun produces free radicals, which in turn increases the rate at which skin ages and can even become cancerous. Shea butter contains natural UV sun protection. It also acts as a natural barrier to protect against elements such as smoke, smog and environmental pollutants in the air.

Silica Microspheres - silica come from sand. Silica scatters light to diminish the look of fine lines on the skin. They also provide an elegant silky texture, enhanced slip and better blendability for a more natural finish. They also provide cream-to-powder texture.

100% Silk Powder - Cosmetic silk powder is a natural moisturizer. Silk powder retains moisture and entraps oil, provides relief from sunburn, windburn and household burns. It is an ancient aid to dry skin.

Sodium Hydroxide – Salt that is created by the hardening of the soap, also called the saponification process.

Sorbitol – Emollient and texture enhancer.

Soy Bean Protein – Moisturizing and healing to the skin, soybean oil also helps stabilize lather.

Sweet Almond Oil – An excellent oil to nourish and moisturize the skin, sweet almond oil absorbs in quickly and therefore doesn't make your skin feel oily.

Titanium Dioxide - Titanium Dioxide is a natural source pigment, quarry mined and further refined to a fluffy white powder. It is commonly found in cosmetics as a whitening agent and it is also found within sunscreens because of its impressive capability to block UV light. This is why it is the first choice for powerful sunscreens.

Vitamin E - The vitamin E family is well known for its antioxidant capabilities. Antioxidants protect vital cell structures by neutralizing molecules called "free radicals". This is why the incorporation of antioxidants like vitamin E into skin care products is so important. Many studies have shown that vitamin E can help decrease the effects of psoriasis, erythema, and may help in reducing the risk of skin cancer. Vitamin E has also been shown to significantly help in the reduction of scarring from wounds and has been shown to help reduce the appearance of stretch marks on the skin.

Witch Hazel - Witch Hazel extract is produced from the leaves and bark of the North American shrub Witch-hazel, *Hamamelis virginiana*. Witch Hazel extract has astringent, antiseptic, anti-inflammatory, antimicrobial, antibacterial, antifungal, and anesthetic properties, making it indispensable for a variety of different medicinal and cosmetic uses. It works as a natural drying agent in some preparations.

Zinc Oxide - Zinc Oxide is an anti-inflammatory, helps to calm and soothe irritated skin, as well as having sun protection abilities.
